## **Lee McKenna**

### **Managing Director of Healthcare**

Lee McKenna joined Stream in 2018 and serves as the Managing Director of Healthcare within the firm's San Antonio office. Lee works exclusively with medical properties and clients on their leasing, development, investment sales, and tenant representation projects. His healthcare team represents over 25 medical properties with almost 1.5 million square feet with various ownership structures, including publicly-traded REITs, private equity, regional, local, and private physician clients. Before joining Stream, Lee worked in the healthcare industry for 12 years, with experience in various roles in operations, finance, and strategy.

Lee served as the VP of Operations for the San Antonio-based start-up Ranger Health/FetchMD, a technology-backed healthcare services platform. In addition, Lee was the Director of Strategic Initiatives at Tenet/Baptist Health System in San Antonio, where he led projects in innovative bundled payment, managed the cardiovascular service line, and oversaw all inpatient transfers, admissions, and census management. Lee began his career in the United States Air Force as a healthcare administrator in the Medical Service Corps.
