Chris Kincaid

Senior Vice President, Design & Construction - Stream Data Centers

Chris oversees the design and construction of Stream Data Centers' product portfolio of Hyperscale Data Centers, Private Data Center™ facilities and Ready-to-Fit™ powered shells. He has more than two decades of experience in project management services, including more than a dozen years focused on mission-critical data center construction and commissioning. Since joining Stream in 2012, Chris has expertly managed an extensive supply chain to support data center projects in excess of 200 megawatts.

Chris is a graduate of Embry Riddle Aeronautical University and is a certified project management professional. He is also a veteran of the U.S. Air Force.
