Katie O'Hara

Vice President, Business Development - Stream Data Centers

Throughout her career, Katie has helped clients optimize energy efficiency, achieve green initiatives and obtain utility sponsored energy credits. Katie's significant business development experience in data center and IT environments make her a valuable catalyst for customer and partner success across Stream's national footprint of data center sales and leasing operations. Since joining Stream in 2017, Katie has focused on expanding the Stream customer base and leveraging new opportunities. Her previous experience included a range of sales and consulting roles at global commercial real estate services firms such as Newmark Grubb Knight Frank and Cushman & Wakefield.

Katie is affiliated with the Chicago AFCOM chapter and the Infrastructure Masons Women's Technology Outreach Committee.
