**Mike Burnett****Senior Vice President of Building Operations**

Mike Burnett is Senior Vice President of Building Operations for Stream Realty Partners. He assists property managers and building technicians throughout the firm's portfolio with training, technical assistance, management of facilities with engineering-only services, code compliance, environmental and hazardous waste administration, preventive maintenance system development, budgeting and major project bidding and review.

Burnett has over 20 years experience with various types of commercial properties including Building Operations Manager of a 1.2 million square foot downtown Class A+ multi-tenant office building and low-rise suburban buildings and industrial facilities. Burnett has extensive experience with energy management systems (including thermal storage); computerized maintenance management systems, environmental issues, construction and virtually all other aspects of building operations and maintenance.

**Education & Designations**
